

To Our Employees:

We are required by law to comply with federal, state, and local COVID-19 vaccination mandates. We are taking all necessary precautions to promote public health and safety and for these reasons, all employees will be required to offer proof of receipt of an FDA-approved vaccination against COVID-19 in order to work in-person at our 330 College Avenue office. We are closing the building to clients and guests unless they can also show proof of vaccination. In the coming months, as policies are updated, we will share further details about our requirements and expectations. If you have any questions, concerns or are unable to receive a vaccination, please reach out to angela.tourney@bluemargin.com. We thank you for your cooperation.
